

MY ECOLOGICAL HOUSE

My ecological house is in the country.

Is it a big house.

There are five bedrooms, two bathrooms, a sitting room, a dining room and a kitchen.

It is a very comfortable house.

The rooms are full of light.

In winter it is very warm.

There is a big garden with some fruit trees.

There are two garages behind the house.

There is a very big swimming pool.

My house is a good place.
